Subject: Fw: CAG Gasco Presentation

Jim/Mikell

Here's a copy of Val's presentation at last week's CAG meeting. I'm working with Sean to prep for the December CAG meeting - we're on the agenda to discuss the GASCO removal. As you can see, there is some creative use of chart scale to set up the "off the charts" comment on WQ exceedences and dead fish were featured in a couple of slides. NW Natural got hammered pretty hard in the discussion.

We'll share a copy of the proposed presentation for the CAG and would welcome any feedback. I'm also planning to meet with Travis on the 28th to give him an update on the overall project and get his input on GASCO.
